### Going away on vacation?

**Stay connected!** It's June and we're all thinking about escaping to the beach, the mountains, and beyond! As a busy and involved executive, can you relax while you are away? There are options available to you that allow you to relax, assured that everything will be monitored while you are away. In your absence, your staff can be freed to continue to focus on strategic and high-level tasks. Visit our **VIT Blog** to read our remote a,b,c's to stay connected while you're away.

### 5 tips: protecting your business while using facebook

As we mentioned in last months **straight up** newsletter, Facebook can be a great way to connect with your clients, the community, your employees and your future employees. At the same time, you want to protect not only your brand, but also your computer networks. Vertical IT Solutions offers you these 5 ways to protect your business and get the most out of using Facebook.

### center stage

#### Ben Ruggiero - Systems Engineer

Please join us in congratulating Ben Ruggiero on his promotion to Systems Engineer. In the two short years that Ben has been here, he has demonstrated unyielding alignment to our core values. He's demonstrated technical growth and tremendous customer service skills. Ben has consistently exceeded his individual goals and he was the only Field Engineer serving as a Solution Specialist. In that role, Ben took the lead on our Pulse service and has collaborated with Service Delivery to improve the **care4IT** Preventive Maintenance process.

■ **Support** for Windows XP Service Pack 2 (SP2) and Windows 2000 will end on July 13, 2010. This means that security updates will no longer be offered for these platforms.

Time to make sure you have a minimum of XP S3- with the Microsoft Baseline Security Analyzer, Vertical IT can scan your network to look for PC's that need updating.

Contact your **Care4IT** Account Manager to find out if it is time for your upgrade or email to [support@verticalit.com](mailto:support@verticalit.com).
